

IFSC 2022 Medical Delegates' Nomination

The IFSC Medical and Anti-Doping commission protects and maintains the standards of athletes' health and of Sport Climbing as a safe sport. It addresses issues impacting the health of athletes and defines the medical regulations for the safe running of IFSC competitions.

The Medical and Anti-Doping Commission ensures that the IFSC complies with the WADA Anti-Doping Code, and implements programmes for the promotion of clean sport.

Starting from the 2022 Events season the IFSC will appoint one commission member per event to supervise all medical operations.

The roles of Medical Delegate at Events include, without limitation, to:

- be the point of contact for IFSC for all the Medical Procedures in place;
- collect the injury reports from the Event Organizer Doctor;
- deliver BMI-screenings after the Semifinals stage of each Lead and Boulder disciplines at each of the IFSC World Cup Events of the season;
- control and supervise the Anti-Doping operations during the Event.
