Appendix No. 2: Safety and Technical Requirements.....	10

OVERVIEW

Introduction

The IFSC Official Sport Equipment is an initiative which aims to make the playing field fairer across international IFSC events (World Cups, World Championships, and Youth World Championships). Each IFSC event will use only authorised IFSC Official Sport Equipment within the Field of Play to ensure that all stakeholders share the same experience, from Athletes and National Federations to Routesetters and Event Organisers.

Furthermore, in compliance with the Olympic Charter Rule 50, the IFSC Official Sport Equipment aims to set out a high standard of quality and clean venue as an Olympic Sport.

The highest priority has been placed on the Holds, Macros, and Volumes category of the Official Sport Equipment due to their importance on Sport Climbing's fairness and quality. A wide range of Holds, Macros, and Volumes is necessary for fair and versatile Routesettings in the Field of Play, with a minimum 3-4 providers ideally featuring in each IFSC event.

Catalogue 2019

The "IFSC Official Sport Equipment Catalogue (Bouldering & Lead) – Category: Holds, Macros, and Volumes" presents a list of IFSC authorised Holds, Macros, and Volumes producers in 2019 (in alphabetical order).

GUIDELINES

For Event Organisers & National Federations:

- Contact the companies/brands listed on the Catalogue for any inquiries regarding the supply of Holds, Macros, and Volumes for all IFSC events
- Select a minimum number of 3-4 brands to be used in each Field of Play in order to ensure fairness and versatile routesetting

For Companies & Manufacturers:

- Communicate with the Event Organisers & National Federations to arrange the delivery of Holds, Macros, and Volumes and other related logistics (For contact details, see Event Page on the IFSC website)
- Comply with safety & technical requirements as outlined in the Appendix No. 2 of the Catalogue

APPENDICES

Appendix No. 1: Category Definitions

Each category is defined by the material and/or manufacturing process, and not by its size.

- **Holds:** Climbing holds made of polyester, polyurethane resin (including screw-ons) or solid wood
- **Macros:** Laminated climbing structures made of fabric (fiberglass, carbon, coconut etc.) and strengthened by resin (polyurethane, polyester, or other materials)
- **Volumes:** Wooden volumes made of (hollow) wood (including wooden screw-ons)

Appendix No. 2: Safety and Technical Requirements

- **Safety:** All products and equipment shall be manufactured in strict accordance with current safety standards as follows:

Equipment	European Standard
Holds	EN 12572-3
Macros and Volumes	EN 12572-1, EN 12572-2

- **Maximum logo size:** In compliance of the Olympic Charter Rule 50, the producer's identification mark/logo is determined by the size of the product, not by category.

Size of Holds, Macros, Volumes	Maximum logo size allowance (cm)
Max length less than 30 cm	2 x 2 cm or 1 x 4 cm
Max length between 30 cm and 50 cm	3 x 3 cm or 2 x 5 cm
Max length greater than 50 cm	7 x 7 cm or 5 x 10 cm

**Note: If the logo size exceeds these dimensions, the logo will be sprayed or covered.*
