

How to create score cards for Bouldering World Cup

- Requirements:
- a computer or laptop with MS word and excel
 - the 2 word files of score cards for 4 or 5 problems

***step 1:** after having created the starting list, download the excel file corresponding

The screenshot shows the IFSC website interface. At the top, there are navigation links like Home, Preferences, Password, Help, Search, and Logout. Below that, there are icons for Ranking, Home, eMail, Address Book, File Manager, Website, and Logout. The main content area displays a table titled 'Startlist Qualification M E N bouldering XYZ'. The table has columns for Start-order, Bib- number, Last name, First name, and Delete. A dialog box titled 'Ouverture de M E N bouldering XYZ - Qualification.csv' is overlaid on the table. The dialog asks 'Vous avez choisi d'ouvrir : M E N bouldering XYZ - Qualification.csv' and provides options to 'Ouvrir avec Microsoft Office Excel (défaut)', 'Enregistrer le fichier', and 'Toujours effectuer cette action pour ce type de fichier.' A callout box with a black border and white background contains the text 'Download the file and put it on your desktop' with a line pointing to the dialog box.

***step 2 :** open the word score card file you need:

- “Scorecard 5 problems” for all qualification rounds
- “Scorecard 4 problems” for all next rounds

In the opening window, choose “No”

The screenshot shows a Microsoft Office Word security warning dialog box. The text inside the dialog reads: 'L'ouverture de ce document exécutera la commande SQL suivante : SELECT * FROM `W O M E N bouldering - Qualific\$` Des données provenant de votre base de données seront insérées dans le document. Voulez-vous continuer ?'. There is a yellow warning icon on the left. Below the text is a button labeled 'Afficher l'aide >>'. At the bottom are two buttons: 'Oui' and 'Non'. A callout box with a black border and white background contains the text 'Choose No' with a line pointing to the 'Non' button.

***step 3 :** - choose “merge” in the word toolbar.

- then “selection of recipients” ,
- then “Use an existing list” and select the excel file you have download from EGW.
- then choose “complete the merge” and in the opening window choose “all”

1-select « merge »

2-select the recipients

3-complete the merge

4-choose all
